HARVARD LAW SCHOOL

## National Center for Medical Legal Partnership

Studies show that when legal services and expertise are used to address social needs, people are:

admitted to the hospital  
less frequently.

more likely to take their  
medications as  
prescribed.

reporting lower levels of  
stress.

# Modernizing the legal system

Pew's approach:

1. **Research** ways to improve health, housing, and financial outcomes for people involved in the civil legal system
2. **Build partnerships** with the private sector, policymakers, and other stakeholders
3. **Develop** and promote promising **technologies**:
  - Online legal tools that help everyone navigate complex problems and connect to resources
  - New systems that improve experiences and outcomes for people who interact with state and local courts

# What these all have in common

- Don't forget the lawyers!
- Information sharing is critical

# Thank you!
